Summary of Meeting (If appropriate attach papers)	<p>The meeting was held to establish a mechanism whereby the two LINKs should be kept informed of developments in the transition phase to Local Health Watch proposed in the Health and Social Care Bill currently before the House of Commons. It was agreed that Medway LINK should be kept informed of developments particularly as Kent LINK were applying for Pathfinder status whilst Medway LINK were not.</p> <p>Roger gave Clare details of the meetings he had attended at the Department of Health both in London and Newbury. It was agreed that if Roger were to represent Medway LINK at future meetings of SELLNET (South East LINKs Leaders Network) he would need to be fully informed and if possible it may be better for Medway LINK to have a separate representative. It was agreed that we should ensure both LINKs received all relevant information by email.</p>
