Dear Reader

Welcome to the Kent LINK's Christmas newsletter.

In this edition, the Kent LINK celebrates its first birthday and looks back at the year 2009.

During the year a number of Panels have been started and I am pleased to introduce these. It has also been a year of change for the Board of Governors and we welcome a number of new faces. During the current month the first Kent-wide project has started and we hope that by the end of January we shall have the preliminary results of the hygiene and disinfection investigations.

During the year LINK Community Engagement Quarterly Events have been held around the County, most recent at Folkestone. A report of this event is on page 3.

Because of the increasing workload, KMN has recruited a Project Worker and we welcome Sophie Swain on page 9.

Christmas is a busy time of year for all of us but if you want a quick and easy way to keep up to date with what the LINK is doing in your area, and all other LINK news, visit the website [www.thekentlink.co.uk](http://www.thekentlink.co.uk)

On behalf of the Kent LINK Governors,  
as well as the KMN team, Season's  
Greetings to you all.

John Fletcher  
Chairman  
Kent LINK Governors' Group
