Subject: Re: Priorities Panel Meeting Papers 14 July 2010 from 2.00pm until 4.00pm in Maidstone

I know this is very last minute but wanted just to make a comment re the Governors' Group paper. I have no objection to using a virtual panel but the value of meeting together is the discussion where everyone is drawing upon everybody else's knowledge and experience.

It is increasing the workload of someone in Kent & Medway Networks. The name has always been a problem to me, as you know. I could not find a role for the Priorities Panel in the last flow chart, the process – only the virtual assessor. Did I miss something?

Hope everyone is well and my best wishes to the panel.

Regards

Lyn Gallimore
